PROFILE

Full Stack Developer with concurrent expertise across **Next.js, ASP.NET Core, and Node.js** ecosystems, having designed and deployed **8+ live commercial platforms**. Independently built **critical production system components** across e-commerce, enterprise SaaS, and EdTech — including payment infrastructure (iyzico), real-time notifications (SignalR), background jobs, and Redis caching. Delivered **high business-value features** such as interactive exam engines, automated certificate generation, RBAC + TOTP/2FA authentication for TAV Security, and Meta CAPI server-side analytics with canvas-based product customization for e-commerce projects. Manages the full software lifecycle from requirements to CI/CD deployment; consistently achieves **Lighthouse 95+, SEO 100/100**.

TECHNICAL SKILLS

Frontend	React, Next.js (SSR/SSG/ISR), TypeScript, Redux Toolkit, Tailwind CSS, Bootstrap, shadcn/ui, Framer Motion, GSAP
Database	PostgreSQL, MongoDB, MySQL · EF Core, Prisma, Sequelize, Mongoose · Repository/UoW Pattern
Languages	TypeScript, JavaScript (ES6+), C#, C, C++
AI & Testing	Anthropic Claude API, Google Gemini, Prompt Engineering · xUnit, Moq, Jest, Supertest
Performance & SEO	Core Web Vitals, WebP/AVIF, Lazy Loading, Code Splitting, JSON-LD Structured Data, Technical SEO, Sitemap/robots.txt
Backend	ASP.NET Core, Node.js, Express.js, RESTful API, SignalR, JWT, RBAC, TOTP/2FA, IHostedService
DevOps & Infra	Docker, Docker Compose, CI/CD (GitHub Actions), Nginx, Linux, VPS, PM2, Redis
Integrations	iyzico, Twilio SMS, SendGrid, Cloudinary, Horoz Kargo, Meta CAPI, Google Analytics, Nodemailer
Architecture	Clean Architecture, SOLID, Rate Limiting, Health Checks, i18n (next-intl), Serilog, FluentValidation, PDF/DOCX generation
Security	bcrypt, HttpOnly JWT, KVKK/GDPR, Helmet.js, GeoIP Session Validation, Signed Cloudinary Upload, Zod Validation

EXPERIENCE

Freelance Full Stack Developer

Remote | 2024 – Present

- Designed, developed, and deployed **8+ production-ready commercial platforms** across e-commerce, enterprise training, and marketplace categories.
- Improved backend response times through PostgreSQL/MySQL index strategies and query optimization; established systematic error tracking with Serilog structured logging.
- Built scalable backend architectures implementing **SignalR** real-time notifications, **Redis** caching, and **IHostedService** background jobs.
- Delivered end-to-end development of Meta Conversions API (CAPI) server-side ad tracking, Horoz Kargo logistics integration, and iyzico payment infrastructure.
- Gained recognition on Bionluk by appearing on **Rising Stars** and **Most Loved Freelancers** lists, standing out for client satisfaction.

Core Stack: Next.js | ASP.NET Core | Node.js | PostgreSQL | MySQL | Prisma | Redis | Docker | Nginx | VPS

TAV Security – Corporate Training & Exam Platform (TavAkademi)

Enterprise | 2025

TAV Private Security Services · Airport Security Personnel Digital Training Infrastructure

- Met enterprise security requirements with JWT-based RBAC and **Google Authenticator TOTP/2FA** for Admin / Trainer / Personnel roles; reinforced with **GeoIP-based session validation**.
- Developed interactive exam modules with a **polygon editor for object-marking baggage inspection simulation** (X-Ray tools: filter, negative, layer merging).

- Automated training operations with **automated certificate generation** (DOCX template engine + PDF-lib + QR code), Puppeteer browser automation, and Excel bulk user import.
- Built a question pool engine for theoretical, visual, and mixed exam types; exam security (fullscreen enforcement, tab-switch detection); and Recharts performance reporting.

Stack: React | Redux Toolkit | Vite | Node.js | Express.js | MySQL | Sequelize | JWT | Speakeasy (TOTP) | Puppeteer | PDF-lib | Docxtemplater | Redis | GeoIP

E-Commerce Platforms

6+ Active Commercial Projects

İşPool · BalkoLüx · Moda Perde · NowArt Plicell · RosallieBaby · BarScarf

- Delivered end-to-end secure payment infrastructure with product & order management, admin panel, and **iyzico payment integration** (installment support, sandbox/production).
- Built ad conversion tracking via **Meta Conversions API (server-side)**, Google Analytics 4, and SEO infrastructure with JSON-LD structured data; dynamic sitemap and robots.txt generation.
- Developed real-time shipment tracking via **Horoz Kargo** logistics API and a **canvas-based product customization tool** (drag-and-drop, layer management, image export).
- Met Turkey-specific localization requirements: cascading city/district/neighborhood address system, national ID verification, and KVKK-compliant cookie management.
- Achieved Core Web Vitals targets through Next.js SSR and image optimization (WebP/AVIF, lazy loading, code splitting); consistently scored **Lighthouse 95+**.

Stack: Next.js 15 | React | TypeScript | Prisma | MySQL | NextAuth.js | Cloudinary | iyzico | Docker | Vercel

Bulursa – Freelance Marketplace Platform

Team Project | 2024 – Ongoing

- Contributed to sprint-based Agile (Scrum) development with iterative task planning and delivery.

FEATURED PROJECTS

Jhun.com.tr – AI Assistant-Powered Multilingual Portfolio Next.js · SSG · Anthropic Claude + Google Gemini · next-intl (TR/EN)

Personal corporate portfolio and blog platform. Full TR/EN bilingual support via **next-intl**; AI assistant powered by Anthropic Claude API + Google Gemini fallback answering visitor questions about CV, projects, and experience in real time; keyword-based quick response + LLM fallback architecture; Lighthouse 100/100 SEO score.

Universal Appointment System – Multi-Tenant Booking API ASP.NET Core · C# · PostgreSQL · EF Core · Redis · SignalR · Docker · xUnit

Scalable multi-tenant appointment management system for healthcare, beauty, education, and legal sectors. JWT/RBAC with Provider / Receiver / Business / Admin roles, **real-time notifications via SignalR**, **Redis caching and SignalR backplane**, **IHostedService SMS reminder background job**, Twilio SMS + SendGrid email, built-in .NET 8 rate limiting, PostgreSQL + Redis health checks. Fully documented RESTful API with Swagger; xUnit & Moq tests; GitHub Actions CI/CD pipeline.

İşPool – Occupational Safety E-Commerce Platform Next.js · Prisma · PostgreSQL · iyzico · Cloudinary · Canvas Design Tool

B2C + B2B platform for PPE and occupational safety equipment. **Canvas-based product customization tool** (react-rnd drag-and-drop, layer management, html-to-image export), AI-powered background removal (remove-bg API), Horoz Kargo logistics integration, and custom manufacturing order flow.

VANET Cyber Attack Simulator OMNeT++ · SUMO · C++

Graduation project — academic simulation modeling cyber attacks such as DoS, message tampering, and identity spoofing in vehicular ad-hoc networks (VANET).

EDUCATION

B.Sc. Computer Engineering — İskenderun Technical University 2020 – 2024

CERTIFICATIONS & COURSES

✓ Full Stack Development Bootcamp
✓ Advanced React and Next.js
✓ Prisma and SQL Advanced Database Management

LANGUAGES

Turkish — Native | **English** — B2 (Upper-Intermediate & Technical Fluency)
